Blythswood Alfa Romeo Press Launch

Vision were delighted to be part of the UK press launch for the new Alfa Romeo Cloverleaf Mito, held at the recently transformed Blythswood Square Hotel in Glasgow.

Vision were heavily involved in the transformation of this impressive, five star hotel, providing the complete kitchen and restaurant facilities, from supply and installation through to project management.

The hotel is the newest addition to The Town House Collection of luxury boutique hotels in Scotland and boasts one of Glasgow's few penthouse suites, 100 bedrooms, 7 suites and an impressive 150-cover restaurant along with private dining rooms.

Once the home of the Royal Scottish Automobile Club, Blythswood Square Hotel provided the ideal location for the launch as The RSAC provided one of the starting points in the iconic 1955 Monte Carlo Rally.

Journalists enjoyed an evening at the hotel before test driving the new Alfa Romeo Mito around Glasgow the following day.
