

**Moddershall Oaks is a country spa retreat offering spa days, spa breaks and treatments set within a luxury venue.**

The client's vision was to supply a light food menu in a deli area which could be offered to the attendees of the spa. Vision were shown detailed plans by the architect of the project and were asked to supply and install the kitchen area.

There was also a large amount of shopfitting work due to take place within the project and so Vision were asked to provide a quote for this additional work. Vision organised for a sample unit to be made up in order to present to the client.

The client was impressed with how quickly a sample unit was made up and the quality of the product. Vision went on to conduct a significant amount of shopfitting within the project.

The finished product was extremely aesthetically pleasing and the client was left completely satisfied with the work that Vision carried out within the spa.
