

Kidspace aim to provide the best indoor adventure playground for both children and their parents to enjoy, play and learn, whilst retaining a safe and healthy environment.

Vision have recently completed work at the adventure playground in Romford. The establishment has updated their restaurant and subsequently doubled the size of their eaterie. The new restaurant is complemented by a delicious menu which focuses on providing healthy, nutritious options which are good value and served with the speed of a fast food restaurant.

Vision's work at Kidspace included a complete kitchen refit, which was carried out whilst the adventure playground remained in operation. Vision also supplied the equipment that accompanies the facilities new brightly coloured and lively counter. Although the work took place within a very tight schedule Vision completed all works to the specified deadline.
