

**After working on numerous projects with Colicci, Vision Commercial Kitchens were pleased to carry out work at The Italian Gardens Café.**

The café is located overlooking the Italian Fountains in Kensington Gardens.

**Works carried out included:**

- The installation of a brand-new L-shaped counter, complete with stone worktop and x2 drop down chilled display units.
- An extension piece to the back counter to provide additional workspace for the Baristas as well as a glass refresher.
- Back of house changes included omitting a janitor sink and fitting a new hand wash basin.

This is our 7th project with Vision Commercial Kitchens and they once again delivered on a very tight timeframe in very tricky circumstances. Their professionalism and problem solving is as always, second to none.

- Rob Colicci, Director, Colicci
