

Snowdonia Nurseries and Garden Centre is a family-run business established in 1984 in Conwy, Wales. They recently decided to refurbish their Olive Tree Coffee Rooms.

Before the owners first contacted Vision in April, they had spoken briefly with various contractors regarding the different stages of their plans. The client wished to increase seating, introduce a bigger menu, install a new servery counter with self-service chilled multi decks and make alterations to increase the internal size of the kitchen so it would be able to cope with more covers. When they realised that Vision could undertake all aspects of the project, it was a huge weight off their shoulders.

The critical part of the refurbishment was that the client wanted to be open in time for the start of the Christmas display season. Although this was an incredibly tight programme, building works began in the second week of September and the soft opening went ahead at the end of October, just before half-term, which was right on schedule. To go alongside The Olive Tree's fresh colour scheme, Vision also supplied the client with brand new light equipment and crockery that fits the establishment perfectly.

Despite a demanding schedule, both Vision and the team at Snowdonia were very proud of the end result.

Once we decided to renovate, we made the phone call to the Vision offices and never looked back. They helped us to create a plan for our requested improvements and take us to the next level of garden centre catering quality. Vision were proficient at providing solutions and suggestions where other companies find problems and restrictions.

We are already experiencing fantastic feedback and record takings. With the ongoing assurance that Vision are always on hand for advice and equipment upkeep, we look forward to potential expansion in the future.

- Hannah Evans, Owner, Snowdonia Nurseries
